

## Special Issue

# Selected Papers from NENS 2023

### Message from the Guest Editor

The 6th International Conference on Nanoenergy and Nanosystems (NENS 2023) will be held on June 17–19, 2023 in Beijing Yanqi Lake International Convention & Exhibition Center, Beijing, China. It is a highly reputed conference and we have organized a collaboration with its Self-Powered Sensors and Systems symposium. NENS 2023 is intended to stimulate discussions on the forefront of research in nanoenergy and nanosystems. We sincerely invite you to participate in this exciting academic event for scientific information exchange and building collaboration. The authors of papers presented at the symposium related to sensors are invited to submit extended versions of their work to this Special Issue for publication. Regular articles and reviews within the Special Issue topics are also welcomed.

### Guest Editor

Prof. Dr. Junyi Zhai

Beijing Institute of Nanoenergy and Nanosystems, Chinese Academy of Sciences, Beijing, China

### Deadline for manuscript submissions

closed (31 October 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
