

## Special Issue

# Recent Advances in Intelligent Optical Coherence Tomography (OCT) Device, Techniques and Sensors

### Message from the Guest Editors

Optical coherence tomography (OCT) technology is rooted in the principle of weak coherent light interference, enabling innovative acquisition of images of sample planes or volumetric structures. OCT's applications range from biomedicine to the manufacturing, agriculture, and food sectors. With the rapid development of artificial intelligence (AI) technology, intelligent devices are being empowered by AI to achieve information perception, logical reasoning, and decision making. In recent years, researchers have actively explored the intelligence of OCT devices, resulting in numerous application branches. Intelligent OCT devices are rapidly evolving towards precision, miniaturization, speed, and multi-modal integration. This Special Issue focuses on research into the intelligence of OCT equipment, encompassing software, hardware, intelligent algorithms, and the application of intelligent OCT in fields such as medicine, industry, and art. ## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
