

## Special Issue

# Security and Privacy in Mobile Sensing Applications

### Message from the Guest Editors

This special issue aims to publish innovative and original research and review articles on recent advances, technologies, solutions, applications, and new challenges related to the security and privacy in mobile sensing applications. Potential topics include but are not limited to the following:

- Data privacy in WSN and IoT networks.
- Security of federated learning communication schemes in mobile sensing applications.
- Hardware security and privacy issues for IoT and mobile sensing applications.
- Future and secure IoT-based data collection methods.
- Secure data mining and machine learning in IoT and mobile sensing applications.
- Side-channel attacks and defense methods for mobile sensing applications.
- Penetration testing challenges for mobile sensing applications.
- Secure routing in sensor networks and mobile sensing applications.
- Intrusion prevention and detection in sensor networks and mobile sensing applications.
- Body sensor network security and privacy challenges.
- Smart meter security and privacy challenges.
- Big data security and privacy issues for sensor networks and mobile sensing applications.

---

### Guest Editors

Dr. Haytham El Miligi

Electrical and Computer Engineering, University of Victoria, Victoria, BC V8W 2Y2, Canada

Dr. Sherif Saad

School of Computer Science, University of Windsor, Windsor, ON N9B 3P4, Canada

---

### Deadline for manuscript submissions

closed (20 November 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
