Special Issue

Innovations in Digital Healthcare Sensing: AI and IoT Intelligence

Message from the Guest Editors

This Special Issue explores advancements in sensor technologies, Large Language Models (LLMs), Small Language Models (SLMs), and IoT edge intelligence, transforming digital healthcare. Al-driven analytics and real-time sensing are enhancing remote monitoring, early diagnostics, and personalized treatment, making healthcare more scalable, efficient, and accessible. We invite contributions on LLM/SLM-powered healthcare sensing, IoT edge intelligence for decentralized and lowlatency applications, multimodal data fusion for enhanced medical insights, and the role of wearable and implantable sensors in continuous health monitoring. Research on Al-driven health analytics, predictive disease modelling, and cost-effective sensing solutions for resource-limited settings is highly encouraged. This issue aims to tackle real-time data processing, interoperability, and decision support challenges, ultimately advancing medical decision-making and patient outcomes.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological

developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
