

Special Issue

Wearable Devices for Physical Activity Monitoring

Message from the Guest Editors

This Special Issue aims to explore the latest advancements, research findings, and technological innovations in the field of wearable devices designed for monitoring physical activity. This issue seeks to provide a comprehensive platform for researchers, practitioners, and industry professionals to share their insights, experiences, and developments related to the use of wearable technology in tracking, analyzing, and promoting physical activity. The goal is to highlight the impact of these devices on health, fitness, and overall well-being, and to discuss the challenges and future directions in this rapidly evolving domain. This Special Issue includes but not limited to:

- Development of new sensors and wearable devices.
- Effects of physical activity monitoring on health outcomes.
- Techniques for accurate measurement and analysis of physical activity data.
- Use of wearables in sports and fitness.
- Applications in chronic disease management and elderly care.
- Impact of wearables on motivation and behavior change in physical activity.
- Emerging trends in wearable technology.
- Health promotion and Health & wellness related topics

Guest Editors

Prof. Dr. Jung-Min Lee

Department of Physical Education, College of Physical Education,
Kyung Hee University (Global Campus), 1732 Deokyoungdaero,
Giheung-gu, Yongin-si 17014, Gyeonggi-do, Korea

Dr. Myong-Won Seo

Department of Sports and Leisure Studies, Keimyung University, Daegu
42601, Republic of Korea

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
