

Special Issue

Cybersecurity in Healthcare and Medical Devices

Message from the Guest Editors

Along with the high value of medical data—which makes healthcare a prime target for cyberattacks—there is lingering uncertainty surrounding best practices, resulting in the uneven application of data protection and cybersecurity regulations. Ensuring the robust protection of medical data and device functionality is further complicated by the increased complexity of healthcare IT ecosystems, the proliferation of Internet of Things (IoT) medical devices, and legacy infrastructures. This Special Issue aims to address technical security challenges in information systems, devices, and networks used in healthcare environments. We particularly welcome experimental research and engineering solutions that enhance the security of these tools while maintaining their operational efficiency and reliability. For more details, please visit [here](#).

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
