

## Special Issue

# Sensor Networks for the Resilient Industrial Internet of Things

### Message from the Guest Editors

With the evolution of Industry 4.0 toward the resilient and human centric view of Industry 5.0, the importance of industrial sensor networks increased even more. Significant savings and redundant parallel information paths can be achieved by means of continuously connected devices and machines. However, the Industrial Internet of Things, where sensors and instruments are placed on a wide area or mobile systems, remains hugely challenging. In such cases, wireless or other innovative technology is often mandatory, because of intrinsic incompatibilities (the mobile device cannot use wires) or high cost of wired infrastructure to cover large (geographical) areas. In recent years, the 5G revolution and the advent of specialized wireless protocols for low-power wide area networks have boosted Internet-connected devices' diffusion also in industry. The combination of new technologies has a very positive impact on sensor networks for "production" and "monitoring of product" in the era of the Industrial Internet of Things.

### Guest Editors

Prof. Dr. Paolo Ferrari

Prof. Dr. Ivanovitch Silva

Prof. Dr. Dennis Brandão

### Deadline for manuscript submissions

closed (30 July 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
