

Special Issue

Advances in Wearable Sensors for Continuous Health Monitoring

Message from the Guest Editors

Wearable technologies and their seamless integration with 5.0 health infrastructure are contributing to the implementation of a patient-centered approach. This Special Issue requests contributions on the current state of the art in the field of wearable technologies for biomedical applications, including advancements in sensor technology, data processing and analytics, the integration into healthcare systems, disease management, and remote patient monitoring. Topics of interest include:

- Design, manufacturing, and fabrication of advanced sensors for healthcare applications
- AI-enabled based healthcare framework with wearable sensors
- Wearable sensors with anomaly detection
- Design, implementation, and test of novel sensing principles
- Machine learning/deep learning techniques for real-time wearable sensor data analytics
- Distributed and connected sensing using wearable sensors
- Remote health monitoring with wearable sensors
- Signal processing and data collection through wearable sensors
- Algorithms and tools for sensing and disease prediction with advanced wearable sensors

Guest Editors

Prof. Dr. Leopoldo Angrisani

Dr. Romano Maria

Dr. Annarita Tedesco

Deadline for manuscript submissions

30 October 2025

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
