

## Special Issue

# Wearable Sensors for Gait and Motion Analysis

### Message from the Guest Editors

Walking is one of the most common activities in people's daily lives, and the evaluation of human gait can directly reflect changes in human health. In recent years, great breakthroughs have been achieved in the perception accuracy and delays of human motion data through highly developed wearable sensor technology and intelligent processing methods. Based on these breakthroughs, researchers have achieved a convenient and efficient evaluation of human gait and other movements, improving the application value of quantitative gait analysis in both daily life and clinical settings. This Special Issue focuses on the cutting-edge work and innovative achievements concerning wearable sensors in broadening the application value of human motion analysis in typical daily and clinical scenarios.

### Guest Editors

Prof. Dr. Tao Liu

State Key Laboratory of Fluid Power and Mechatronic Systems, School of Mechanical Engineering, Zhejiang University, Hangzhou 310027, China

Dr. Bingfei Fan

College of Mechanical Engineering, Zhejiang University of Technology, Hangzhou 310014, China

### Deadline for manuscript submissions

closed (25 December 2024)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
