

## Special Issue

# Trusted and Secure Edge Intelligence for Large AI Models in IoT Sensor Networks

### Message from the Guest Editors

This Special Issue seeks to showcase the latest research in **trusted and secure edge intelligence for IoT, powered by large AI models**. We invite submissions on novel architectures, algorithms, and applications that integrate intelligent sensing with secure and trustworthy AI deployment at the edge. Potential topics include, but are not limited to:

- Secure and trusted edge architectures for IoT sensor networks;
- Deployment and optimization of large AI models in edge-IoT systems;
- Privacy-preserving learning for sensor data (federated learning, homomorphic encryption, differential privacy);
- Adversarial machine learning and defense strategies in IoT sensing environments;
- Blockchain and decentralized trust for IoT and edge intelligence;
- Lightweight compression, distillation, and adaptation of large AI models for sensor networks;
- Trustworthy and explainable AI for IoT sensing applications;
- Secure orchestration of edge-cloud resources for large AI models;
- Industrial and mission-critical applications: smart healthcare, precision agriculture, industrial IoT, autonomous systems, energy grids, smart cities.

### Guest Editors

Dr. Qinqin Tang

State Key Laboratory of Networking and Switching Technology, Beijing  
University of Posts and Telecommunications, Beijing 100876, China

Dr. Zhe Peng

Department of Industrial and Systems Engineering, The Hong Kong  
Polytechnic University, Hong Kong 999077, China

Dr. Tianjiao Chen

China Mobile Research Institute, Beijing 100053, China

### Deadline for manuscript submissions

31 May 2026

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
