

Special Issue

Emerging Trends and Novel Materials for Low-Cost Environmental Sensors

Message from the Guest Editors

The Special Issue aims to be a solid reference for the technological community to present the most recent results of scientific and technological research on sensors, with particular emphasis on applications and new trends (nanotechnology, biotechnology, and AI). Review papers are also welcome. Most, but not all, of the focus of this Special Issue is on new technologies for the design, construction, efficiency, safety, comfort, and safe operation of the following: built environment sensors, signal processing, data analytics, artificial intelligence applied for low-cost sensors, sensor networks, optical wireless communication, thermographic cameras, thermal camera communication, and biosensors for real-time air and water quality monitoring. The use of AI and machine learning for data analysis and interpretation provided by low-cost, portable sensors and networks for developing countries, as well as intercomparison studies that include such sensors, are especially welcome for this Special Issue.

Guest Editors

Prof. Dr. Daniel Dunea

Dr. Gabriel Abarca

Prof. Dr. Rodica-Mariana Ion

Deadline for manuscript submissions

20 August 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di
Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
