

## Special Issue

# Blockchain Technology for Internet of Things

### Message from the Guest Editor

This Special Issue aims to explore blockchain's application in enhancing IoT across multiple domains. Specifically, this Special Issue aims to focus on the following:

- Applying blockchain in healthcare to secure patient data and ensure tamper-proof medical records.
- Utilizing blockchain for smart cities ensures secure transactions, improving efficiency and trust in city initiatives.
- Leveraging blockchain in smart navigation secures vehicle-to-vehicle communication, ensuring reliable navigation information.
- Implementing blockchain for mission-critical IoT systems enhances security and resilience in critical infrastructure and industrial IoT.
- Employing blockchain in big data ensures decentralized, secure processing, and sharing of IoT-generated data.
- Using blockchain for supply chain management ensures transparency and traceability, reducing fraud and improving efficiency.
- Integrating blockchain in agriculture secures IoT sensor data, aiding informed decisions and traceability of agricultural products.
- Adopting blockchain for energy management secures transactions in smart grids, enhancing energy management efficiency.

---

### Guest Editor

Dr. Faisal Jamil

School of Computing, Engineering and Intelligent Systems, Ulster University, Derry-Londonderry BT48 7JL, Northern Ireland, UK

---

### Deadline for manuscript submissions

25 March 2026

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
