

## Special Issue

# Wireless Powered Cognitive Radio Sensor Networks

### Message from the Guest Editors

The present Special Issue, "Wireless-Powered Cognitive Radio Sensor Networks", approaches the problem of spectrum management and optimal resource allocation in the context of fast-growing data and resource demand, with a twofold aim: to explore current implementations of cognitive radio sensor networks; to address the issue of wireless power delivery to ensure their continuous and seamless working cycle. The role of cognitive radios is becoming more and more important, since they are able to access the frequency spectrum in an opportunistic manner, thus exploiting the always-true paradox of highly allocated but poorly exploited frequency resources.

---

### Guest Editors

Prof. Dr. Luigi Ferrigno

Department of Electrical and Information Engineering, Cassino,  
University of Cassino and Southern Lazio, Cassino, Italy

Dr. Gianni Cerro

Department of Medicine and Health Sciences "V. Tiberio", University of  
Molise, Campobasso, Italy

---

### Deadline for manuscript submissions

closed (31 December 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
