

Special Issue

Wireless Sensor Networks for the Development of Cyber-Physical Systems (CPS)

Message from the Guest Editors

This Special Issue seeks to explore solutions specifically for the design, implementation, and analysis of sensor networks within industrial CPS. We encourage submissions that address scenarios where sensor networks are integral to the functioning and optimization of complex cyber-physical systems. Contributions are invited on (but not limited to) the following topics:

Measurement methods and techniques for characterizing Wireless Sensor Networks (WSNs)

- Novel approaches to characterize bandwidth, latency and time synchronization
- Methodologies for detecting cyberattacks and vulnerabilities in networked CPSs

Wireless Communication for Industrial CPS:

- Wireless sensor networks for enabling connectivity in Industrial IoT and CPS.

Sensor Systems and Data Management in CPS:

- Sensor-based measurement systems for precise control and optimization within CPS.

Security and Reliability of CPS Sensor Networks:

- Security protocols and mechanisms for protecting sensor data and CPS infrastructure.

Applications and simulation models of Sensor-enabled CPS:

- Case studies and applications of CPS in large industrial plants and manufacturing processes.

Guest Editors

Dr. Alberto Morato

National Research Council of Italy, CNR-IEIIT, 35131 Padova, Italy

Dr. Federico Tramarin

Department of Engineering "Enzo Ferrari", University of Modena and Reggio Emilia, 41125 Modena, Italy

Deadline for manuscript submissions

31 August 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di
Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
