

## Special Issue

# Advances and Challenges in Sensor Security Systems

### Message from the Guest Editor

In recent years, the field of sensor security systems has seen significant advancements, driven by technological innovations, increasing demand for robust security solutions, enhanced wireless connectivity, improved energy efficiency, and so on. The integration of multiple sensor types enables comprehensive threat detection, enhancing reliability and effectiveness. Despite these advancements, several challenges remain. Ensuring cybersecurity to protect sensors from attacks is crucial, especially as sensor interconnectivity grows. Continued research is essential to address these issues and further improve sensor security systems. This Special Issue focuses on novel advances and challenges in this field. Our goal is to bring together researchers, industry, and companies operating in related fields to share recent discoveries, new ideas, and cutting-edge accomplishments.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
