

Special Issue

Bio & Chem Sensors: Young Scientists in the Americas

Message from the Guest Editor

We invite submissions for a Special Issue highlighting the contributions of emerging young scientists from the Americas in bio and chemical sensors. This edition will showcase innovative research that advances sensor technology and its applications in analytics and diagnostics. We welcome fresh research across chemistry, biology, material science, and engineering, focusing on novel sensor materials, fabrication techniques, and data analysis methods. Key topics include biosensor devices, procedures, and applications, particularly in biomedical fields and environmental monitoring. Contributions can be comprehensive literature reviews or concept papers based on your research. This Special Issue may also be developed into a book. We look forward to your submissions!

Ilya Sterin

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
