Special Issue

Artificial Intelligence and Internet of Things in Health Applications

Message from the Guest Editors

Sensors welcomes submissions to this Special Issue on "Artificial Intelligence and the Internet of Things in Health Applications". The complexity and dramatic increase in the amount of data in health applications have led to the development of Artificial Intelligence (AI) systems within the field. The Internet of Things (IoT) will allow for more connected, remotely managed health conditions. In addition, there is a growing interest towards cloud computing and, more recently, Fog and Edge computing for time-sensitive applications and real- time analytics. To this end, this Special Issue is looking for articles that provide unique insight into the development of IoT or AI-enhanced methods in health applications.

Guest Editors

Dr. Atena Roshan Fekr

1. Institute of Biomedical Engineering, University of Toronto, Toronto, ON, Canada
2. The KITE Research Institute, University Health Network, Toronto, ON, Canada

Prof. Geoff Fernie

1. Institute of Biomedical Engineering, University of Toronto, Toronto, ON, Canada
2. The KITE Research Institute, University Health Network, Toronto, ON, Canada

Deadline for manuscript submissions

closed (31 March 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:
JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
