

Special Issue

Artificial Intelligence and Blockchain for IoT B5G Networking

Message from the Guest Editors

This Special Issue (SI) solicits works targeting beyond 5G networking, focusing on research addressing artificial intelligence (AI) and blockchain, and the integration of both. The large amount of data that will be collected by IoT devices will be sent to the cloud, with ample room for data analytics and AI techniques. On the other hand, security aspects (integrity, confidentiality, reliability) shall be considered from the early design stages, and not as late patches, and blockchain has loomed as an enabling technology that might be considered. Authors of selected papers from the ICC'21 Workshop towards Standardized Secured IoT B5G Networking - Artificial Intelligence and Blockchain will be invited to send extended versions of their papers; however, other original submissions are also welcome and will be considered for publication in this Special Issue.

- B5G
- Artificial Intelligence
- Machine Learning
- Blockchain
- Fog/Cloud computing

Guest Editors

Prof. Dr. Ramón Agüero

Dr. Ayman Radwan

Dr. Kim-Fung Tsang

Deadline for manuscript submissions

closed (30 March 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
