

Special Issue

Intelligent Traffic Safety and Security

Message from the Guest Editors

In the context of the rapid development of global autonomous driving technology, intelligent traffic safety and security has become a hot research topic. With the popularization of autonomous driving systems, they have shown great potential in improving road safety and optimizing traffic efficiency. However, the security and information confidentiality of intelligent systems have become urgent problems to be solved. This Special Issue focuses on the core content of automatic driving, intelligent systems and information security, aiming to discuss the latest advancements in automatic driving systems, providing in-depth research in relation to the information security mechanisms of intelligent systems and providing a security guarantee for the development of intelligent transportation.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
