

## Special Issue

# Network Security and IoT Security

### Message from the Guest Editor

This Special Issue of the journal *Sensors* will focus on “Network security and IoT Security” with a broad focus on the following (but not exhaustive) list of topics:

- IoT security threats and mitigation
- Access management
- Improved authentication
- Wireless security
- Endpoint security
- Biometrics in security
- Malware detection
- Information security
- Cloud security
- Risk management
- Digital forensics
- Challenges in remote access
- Data storage security
- Data loss prevention systems
- Cryptography
- Blockchains
- Mobile applications security

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
