

Special Issue

Recent Advances Technologies for Intelligent Sensing in Augmented Reality Environments

Message from the Guest Editors

In this Special Issue we invite authors to submit original research articles, surveys and viewpoint articles related to recent advances at all levels of the application stack and related technologies. We are particularly interested in presenting emerging technologies related to intelligent sensing in combination with augmented reality that may have a significant impact on the field for years to come. We are open to papers addressing a broad range of topics, from foundational topics regarding the operating principles of intelligent sensing/AR systems, and novel design principles for building future intelligent sensing/AR systems; to papers presenting advanced frameworks and technological platforms for developing intelligent sensing/AR applications; to pilots reporting innovative approaches for human engagement.

Guest Editors

Dr. Ioannis Chatzigiannakis

Department of Computer, Control & Informatics Engineering, Sapienza University of Rome, 00185 Rome, Italy

Prof. Dr. Konstantinos Moustakas

Wire Communications Laboratory, Department of Electrical and Computer Engineering, University of Patras, GR - 26 500 Rion, Patras, Greece

Deadline for manuscript submissions

closed (31 August 2019)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
