

Special Issue

Advances on Vehicular Networks: From Sensing to Autonomous Driving

Message from the Guest Editors

This Special Issue is seeking for high quality original contributions, soliciting high level technical papers addressing the main research challenges in the vehicular networking, sensing, and information systems areas. The possible contributions should consist in original theoretical or practical analyses, never published elsewhere, and validated by simulations or real test beds. Potential topics include, but are not limited to:

- Information management services
- Vehicular ad hoc networks
- Vehicular sensor networks
- 5G in vehicular networking
- Multimedia communications in vehicular scenarios
- Ontologies for Intelligent Transportation Systems
- Content distribution in vehicular environments
- Vehicular cloud computing and networking
- Knowledge data systems for Vehicular Communications
- Advanced services through Vehicular Communications
- Social Networks in vehicular environments
- Security, trust and privacy in Vehicular Communications
- Autonomous driving
- Models, simulators and tools for Intelligent Transportation Systems

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
