

## Special Issue

# Ambient intelligence Simulations and Smart Sensors: Ubiquitous services and social simulations

### Message from the Guest Editors

Ambient intelligence (Aml) is applied to many scenarios, ranging from smart cities to emergency situations, including health care, social learning, and so on. In these scenarios, users consume Aml services with context awareness features, enabling interactions with smart sensors and embedded systems, context recognition, and communications. This Special Issue seeks scientific works that contribute to facilitating the development, interaction, composition, identification, monitoring, and communication with smart sensors, as well as reflecting the participation of users or agents in Aml scenarios, through real deployments or simulations. Authors can submit papers in the areas of ubiquitous and pervasive services, cyber-physical systems, home automation, blockchain-based scenarios, agent-based social simulations, co-simulations, smart sensors, event prediction and awareness scenarios, end-user service development and composition, and in any other related areas.

### Guest Editors

Dr. Diego Martín

ETSI de Telecomunicación, Universidad Politécnica de Madrid, Av.  
Complutense 30, 28040 Madrid, Spain

Dr. Ramon Alcarria

School of Geomatic Engineering, Technical University of Madrid, 28040  
Madrid, Spain

### Deadline for manuscript submissions

closed (1 September 2019)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
