

Special Issue

Biosensors for Surveillance and Diagnosis

Message from the Guest Editors

This Special Issue invites authors from academia and industry to submit new research results, clinical findings, and reviews about innovations and novel applications focused on biosensors for surveillance and diagnosis. The main topics include, but are not limited to:

- Recent advances in biosensing techniques and applications;
- Newer approaches in disease detection and progression;
- Healthcare monitoring;
- Point-of-care testing.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief
