

## Special Issue

# Biomedical Infrared Imaging: From Sensors to Applications

### Message from the Guest Editors

Technological advancement of infrared sensors is particularly important for biomedical research. This Special Issue aims to create a sharing opportunity between experts on infrared sensors development and scientists that apply such technology within the biomedical field through software, experimental procedures, or novel applications. Different innovative detectors, sensitive to different ranges of the infrared spectrum (from near- to far- infrared; e.g., Silicon Photomultipliers, Bolometers, Quantum Well Detectors, etc.), and application that relies on such sensors, with emphasis on, but not only, wireless or portable technologies, are suitable topics. Original papers that describe new research or innovative biomedical application are welcome. We look forward to, and welcome, your participation in this Special Issue.

### Guest Editors

Prof. Dr. Arcangelo Merla

Department of Engineering and Geology, University of G. d'Annunzio  
Chieti and Pescara, 66127 Pescara, Italy

Dr. Antonio Maria Chiarelli

Infrared Imaging Lab, ITAB Institute for Advanced Biomedical  
Technologies, Department of Neuroscience, Imaging and Clinical  
Sciences, University of Chieti-Pescara, 66100 Chieti, Italy

---

### Deadline for manuscript submissions

closed (30 November 2018)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
