Body Sensor Networks (BSN) and Innovative Approaches for Data Fusion and Analytics in Internet of Medical Things (IoMT)

Message from the Guest Editors

MDPI *Sensors* invites manuscript submissions in the area of Internet of Medical Things (IoMT). In recent decades, the world has been facing major challenges to manage the rapid aging of the population, the increase of individuals with chronic illnesses, infant mortality, high-frequency outbreaks of epidemics, poor health, and increased pollution. In this context, the research challenges concern several aspects: Body sensor networks (BSN) and innovative approaches for data fusion; fog and edge computing for pre-processing, filtering and compression of data produced by sensors; stream processing and parallel architectures; etc.. The primary goal of this Special Section in MDPI *Sensors* is to provide an overview of the current state-of-the-art advances in the domain of IoMT. We also highly encourage the submission of multimedia with each article, as this significantly increases the visibility, downloads, and citations of articles.

Guest Editors

Prof. Dr. Pierluigi Ritrovato

Dr. Luca Greco

Prof. Dr. Giancarlo Fortino

Dr. Kelvin Wong

Dr. Hassan Ghasemzadeh

Deadline for manuscript submissions

closed (31 December 2020)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
