

Special Issue

State-of-the-Art Biosensors Technology in China 2020–2021

Message from the Guest Editors

Biosensors are the basic elements of emerging networks for novel health monitor and medical diagnosis of individuals, families, clinics, and hospitals. This Special Issue will provide an overview of the progress and state-of-the-art techniques of manmade biosensors, as well as the latest understandings of the working mechanisms of natural biosensors. Topics include, but are not limited to the following:

- New sensing mechanisms
- Key materials for biosensors
- Fabrication techniques for biosensors
- Sample preparation techniques for biosensors
- Biosensor networks
- Artificial intelligent assisted biosensors
- Clinical biosensors
- Wearable biosensors
- Implantable biosensors
- Legal and ethical issues of biosensors
- Artificial biosensors
- Natural biosensors
- Biomedical sensors
- Wearable sensors
- NEMS/MEMS

Manuscripts should be submitted online at www.mdpi.com by [registering](#) and [logging in to this website](#). Once you are registered, [click here to go to the submission form](#).

Guest Editors

Prof. Dr. Wei Wang

School of Electrical Engineering and Computer Sciences, Peking University, Beijing 100871, China

Prof. Dr. Shengyong Xu

School of Electronics, Peking University, Beijing 100871, China

Deadline for manuscript submissions

closed (15 April 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
