

Special Issue

Blockchain Security and Privacy for the Internet of Things

Message from the Guest Editors

This Special Issue addresses the innovative developments, technologies, and challenges related to blockchain, security, and privacy for the IoT. The Special Issue is seeking the latest findings from research and ongoing projects. Additionally, review articles that provide readers with current research trends and solutions are also welcome. The potential topics include, but are not limited to:

- Blockchain
- Security
- Internet of Things
- Cyber security
- Privacy
- Industry 4.0

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
