

## Special Issue

# Development of Flexible and Wearable Sensors and Their Applications

### Message from the Guest Editors

The field of flexible and wearable sensors represents a rapidly evolving field, revolutionizing the way we monitor physiological and environmental parameters. By combining advances in materials science and electronics, these sensors are designed to adapt to bending, stretching, and deformation, making them suitable for on-body applications and integration in wearable devices. This Special Issue welcomes the submission of original research papers and comprehensive reviews focusing on the development and applications of flexible and wearable sensors. We particularly encourage submissions addressing innovations in materials, fabrication methods, sensing mechanisms, and real-world applications that showcase the versatility and potential of these emerging technologies.

### Guest Editors

Dr. Chiara Romano

Department of Engineering, Università Campus Bio-Medico di Roma, 00128 Roma, Italy

Dr. Alessandro Giuseppe D'Aloia

1. Department of Astronautical, Electrical and Energy Engineering, Sapienza University of Rome, via Eudossiana 18, 00184 Rome, Italy  
2. Research Center on Nanotechnology Applied to Engineering of Sapienza (CNIS), Sapienza University of Rome, via Eudossiana 18, 00184 Rome, Italy

---

### Deadline for manuscript submissions

closed (15 December 2025)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
