

Special Issue

Advanced Sensors and AI Integration for Human–Robot Teaming

Message from the Guest Editors

This Special Issue on "Advanced Sensors and AI Integration for Human–Robot Teaming" aims to explore the latest advancements in sensor technologies and their integration with artificial intelligence (AI) to enhance human–robot collaboration. As the fields of robotics and AI continue to evolve, the need for sophisticated sensors that can provide precise, real-time data is paramount. This issue will cover innovative sensor designs, data acquisition methods, and AI algorithms that enable seamless interaction between humans and robots. This Special Issue invites contributions that address the challenges and opportunities in developing sensors that are not only accurate and reliable but also capable of being integrated into complex AI systems. Topics of interest include, but are not limited to, sensor fusion, machine learning for sensor data interpretation, real-time data processing, and the use of sensors in autonomous systems. For more details, please visit [here](#).

Guest Editors

Prof. Dr. Nader Jalili

Mary and Richard Templeton Dean of Lyle School of Engineering, Professor of Mechanical Engineering, Southern Methodist University (SMU), Dallas, TX, USA

Dr. Soroush Korivand

Michael W. Hall School of Mechanical Engineering, Mississippi State University, Starkville, Starkville, MS, USA

Deadline for manuscript submissions

25 January 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
