Special Issue

Colorimetric and Fluorescent Sensors 2018

Message from the Guest Editors

This Special Issue, titled "Colorimetric and Fluorescent Sensors 2018", in *Sensors*, an interdisciplinary journal dedicated to covering research and developments in the field of colorimetric and fluorescent sensors and actuators. The scope of the special issue encompasses, but is not restricted to, the following areas: Colorimetric and fluorescent sensing principles and mechanisms, biosensors, analytical chemistry, and biomedical applications.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
