Chemical and Biological Sensors: Devices and Systems

Message from the Guest Editor

The ability to measure changes in a large environment such as a water processing plant or an ecological system as well as in smaller scale environments such as the human body is increasing in importance because of economic, health and safety consequences. There have been many advances in recent years and it is timely to provide a Special Issue. This call for papers invites technical contributions to a Special Issue of *Sensors* on "Chemical and Biological Sensors: Devices and Systems" The Special Issue is intended to describe novel or state-of-the-art devices and systems to measure chemical and biological environments, and provide insights into function, applications or methods of manufacture. Potential topics include, but are not limited to:

- Electronic nose
- Lab-on-a-chip
- Nano-fluidic devices
- Bio-medical sensors
- DNA chips
- Wearable biosensors
- Interfaces and membrane technology
- Instrumentation
- AI enhancement of selectivity

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
