

## Special Issue

# Dependability of Wireless Sensor Networks

### Message from the Guest Editors

This Special Issue aims to bring together research efforts and development in the area of WSNs. It will provide a platform for academic researchers and industry to present new techniques or evaluations of existing techniques for the provision of dependable services in WSNs. Submissions that include practical results demonstrating real-world efficacy will be preferred.

- Threat modelling in WSNs;
- Reliability modelling in WSNs;
- Security and privacy issues in WSNs;
- Reliable protocols;
- Cross-layer design and optimization;
- Fault detection and recovery;
