

Special Issue

Dependability of Wireless Sensor Networks

Message from the Guest Editors

This Special Issue aims to bring together research efforts and development in the area of WSNs. It will provide a platform for academic researchers and industry to present new techniques or evaluations of existing techniques for the provision of dependable services in WSNs. Submissions that include practical results demonstrating real-world efficacy will be preferred.

- Threat modelling in WSNs;
- Reliability modelling in WSNs;
- Security and privacy issues in WSNs;
- Reliable protocols;
- Cross-layer design and optimization;
- Fault detection and recovery;

Guest Editors

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
