

## Special Issue

# Mobile Edge Computing for 5G and Future Internet

### Message from the Guest Editors

At present, the service and communication paradigms are rapidly changing from simple applications to various intelligent multimedia applications such as immersive VR/AR contents as well as from cellular and WiFi based networks to heterogeneous networks including all-IP, device-to-device, and Internet of Things (IoT). With such big changes, interest in 5G and edge computing is increasing. Edge computing is a technology that reduces transmission delays and bandwidth constraints by placing resources such as computing, memory, bandwidth, and applications on a network close to the user. This Special issue “Mobile Edge Computing for 5G and Future Internet” aims (i) the recent developments in distributed control and schemes for edge computing in 5G environment, and (ii) the analysis of critical issues and proposals for the interworking with future internet technologies. The topic is included but not limited:

- intelligent edge computing
- cooperated mobility management
- distributed content migration
- secure edge computing
- vehicular edge computing
- network slicing
- mobility-aware edge computing

---

### Guest Editors

Prof. Dr. Jihoon Lee

Prof. Dr. Daeyoub Kim

Prof. Dr. Wonjong Noh

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
