

## Special Issue

# Electronic Tongues, Electronic Noses and Other Chemometric-Based Approaches for Analytical Applications

### Message from the Guest Editors

Over the last few years, there has been an increasing demand for fast, highly sensitive and selective methods of analysis to meet new challenges. This Special Issue aims to cover the advances of such biomimetic sensing systems, by creating a collection of papers dealing with the use of multivariate data analysis methods, novel applications and strategies for multicomponent analysis using single sensors or sensor arrays and any other related biologically inspired sensing approach. Both research papers and review articles will be considered. We look forward to and welcome your participation in this Special Issue. Topics of interest include, but are not limited to, the following:

- New sensing and biosensing technologies for developing electronic nose and electronic tongue analysis systems;
- Applications in identification / quantification of compounds with sensor array principles;
- Use of novel data treatment approaches in electronic nose / electronic tongue methodology;
- Study of key issues on long-term usage of these systems: calibration transfer, correction of drifts, sensor replacement.

### Guest Editors

Prof. Dr. Manel Del Valle

Sensors & Biosensors Group, Department of Chemistry, Universitat Autònoma de Barcelona, Edifici Cn, Campus de Bellaterra (Cerdanyola del Vallès), 08193 Barcelona, Spain

Dr. Xavier Cetó

Department of Chemistry, Faculty of Sciences, Universitat Autònoma de Barcelona 08193 Bellaterra, Barcelona, Spain

### Deadline for manuscript submissions

closed (15 June 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
