

## Special Issue

# Recent Advancement in Edge/Fog Computing for Intelligent IoT Applications

### Message from the Guest Editors

This Special Issue intends to collect cutting-edge research from both academia and industry, with emphasis on current intelligent application developments and future directions in distributed intelligence, self-organizing 5G networks, AI-led applications for IoT, distributed computation and analytics in IoT environments providing a unique opportunity for both technology and applied science to meet. We invite authors to submit their original papers. Potential topics include:

- Theoretical Foundation and (Distributed) Computing models for FEC Applications
- Intelligent IoT Management and Networking Services
- Self-evolving, self-organizing FEC Networking Applications
- FEC-based Intelligent Data and/or Knowledge Management Services (data analytics)
- Intelligent caching for large-scale contextual data in FEC Applications
- Quality of Experience/Quality of Service for FEC
- Bio-inspired FEC Applications in large-scale networks (e.g., UxVs, WSNs, IoT)
- Decision Support & novel Services in FEC-based IoT

---

### Guest Editors

Dr. Christos Anagnostopoulos

Dr. Kolomvatsos Kostas

Dr. Dimitrios Pezaros

---

### Deadline for manuscript submissions

closed (31 July 2020)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
