# **Special Issue**

# Security and Privacy of the Internet of Things for Industrial Applications

## Message from the Guest Editors

In recent years, the Industrial Internet of Things (IoTs), which uses IoT devices together with big data and machine learning techniques, has greatly transformed manufacturing and industrial processes, not only improving productivity and analytics, but also transforming workplaces. Nevertheless, the Industrial IoTs still faces many security and privacy challenges. If those challenges cannot be dealt with, the Industrial IoTs cannot reach its final stage of development. This Special Issue, therefore, aims to collate original research and review articles on recent advances, technologies, solutions, applications, and new challenges in the field of Industrial IoTs. Potential topics include, but are not limited, to the following:

- Industrial IoT trust, security and privacy;
- Trustworthy Industrial IoT data management;
- Al-based data analytics for Industrial IoT;
- Industrial IoT security protocols;
- Cybersecurity for OT/IT convergence;
- Digital twin security and privacy in Industrial IoT;
- Blockchain technologies in Industrial IoT.

## **About the Journal**

## Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

#### Editor-in-Chief

#### Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

## **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
