

## Special Issue

# Security and Privacy in Next-Generation Mobile Networks: Challenges, Solutions, and Innovations

### Message from the Guest Editor

The rapid evolution of mobile networks, particularly with the advent of 5G and the development of 6G technologies, is revolutionizing communication.

However, this transformation also introduces significant challenges in terms of privacy and security. This Special Issue addresses the critical privacy and security issues in next-generation mobile networks. We invite original research articles, review papers, and case studies that explore new theories, methodologies, and applications in this field. Contributions may include but are not limited to the following topics: -Privacy-preserving techniques in 5G and 6G networks: Research on advanced cryptographic protocols and privacy-enhancing technologies designed to protect user data. - Security frameworks for IoT and edge computing: Innovative approaches to securing IoT devices and edge computing infrastructures. -Threat detection and mitigation: Development of advanced threat detection systems, intrusion detection/prevention systems (IDS/IPS), to protect mobile networks against cyber-attacks. -Blockchain and distributed ledger technologies (DLT) in mobile security; Secure communication protocols, etc.

### Guest Editor

Dr. Yohan Park

Next-Generation Information Security Laboratory (NISL), College of Engineering, Keimyung University, Daegu 24601, Republic of Korea

### Deadline for manuscript submissions

20 April 2026

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
