

# Special Issue

## Feature Papers in Electronic Sensors

### Message from the Guest Editors

We are pleased to announce that the Section Electronic Sensors is now compiling a collection of papers submitted by the Section Editorial Board Members (EBMs) as well as outstanding scholars in this research field. We welcome both contributions and recommendations from the EBMs. The purpose of this Special Issue is to publish a set of papers that typify the very best insightful and influential original research articles or reviews where our Section's EBMs discuss key topics in the field. We expect these papers to be widely read and highly influential within the field. All papers in this Special Issue will be collected into a printed edition book after the deadline, and will be well promoted. We would also like to take this opportunity to call on more scholars to join the Section Electronic Sensors so that we can work together to further develop this exciting field of research. ## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
