

Special Issue

Flexible Multifunctional Sensors for Health Monitoring

Message from the Guest Editor

The recent pandemic has brought to light the importance of digital health. Multiple sensors work together to form the technology platform behind health monitors, with an emphasis on wearables. With this motivation, it is our great pleasure to invite you to contribute an original research or review article to a Special Issue of *Sensors* on "Flexible Multifunctional Sensors for Health Monitoring". In this Special Issue, we hope to bring together contributions from leading experts in the field of flexible sensors and sensor networks, with an emphasis on a combination of materials, sensors, or applications for health monitoring. The tentative submission deadline will be 1 January 2022. Dr. Joo Chuan YEO

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
