

## Special Issue

# Wearable Technologies and Sensors for Healthcare and Wellbeing

### Message from the Guest Editors

An explosive growth in wearable technology has been witnessed in recent years. This area is experiencing massive expansion thanks to huge technical advances in information and communications technology driven by changes in demography, lifestyle, environment, etc. To advance the state of the art, we solicit research contributions focused on novel wearable technology and sensors for healthcare and wellbeing applications, with particular attention to: human motion analysis and (tele)rehabilitation; geriatric care, healthy ageing and chronic disease management (i.e., Parkinson's disease); health markers, physiological monitoring and emotion AI (also known as affective computing); sports analytics, fitness and injury prevention; fundamental research in machine learning applicable to wearables (i.e., human activity recognition, edge analytics, time series analysis, physics-informed AI, etc.); and novel hardware prototypes (i.e., smart textile, wearable robotic devices).

### Guest Editors

Dr. Salvatore Tedesco

Wireless Sensor Network Group, Micro and Nano Systems Centre,  
Tyndall National Institute, University College Cork, T12R5CP Cork,  
Ireland

Dr. Sokratis Komaris

Lecturer in Biomedical Engineering, Aston University, College of  
Engineering & Physical Sciences, School of Engineering & Technology,  
Birmingham B4 7ET, UK

### Deadline for manuscript submissions

closed (20 February 2025)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
