Privacy and Security for IoT-Based Smart Homes

Message from the Guest Editors

The rapid proliferation of IoT devices in smart homes has revolutionized convenience, connectivity, and energy efficiency in homes and in our daily lives. However, this increased reliance on interconnected sensors, smart appliances, and cloud-based services introduces significant privacy and security challenges. This Special Issue of *Sensors* aims to explore innovative approaches to ensure the privacy and security of IoT-based smart homes.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
