

Special Issue

Flexible Wearable Sensors

Message from the Guest Editor

This Special Issue focuses on the latest developments and trends in flexible wearable sensors. It covers, but is not limited to, advances in fundamental theories and mechanisms, the development of preparation technologies and signal processing and the innovative applications of flexible wearable sensors. Especially welcome are papers about flexible wearable sensors with special functionalities such as recyclability, self-healing, degradability, superhydrophobicity and other unique features, as well as papers on natural material-based flexible wearable sensors. Authors are invited to submit original research papers, communications and review articles; we hope these papers will help provide new findings and insights into flexible wearable sensors.

Guest Editor

Dr. Hongqiang Li

Department of Polymer Materials Science and Engineering, South China University of Technology, Guangzhou 510640, China

Deadline for manuscript submissions

closed (20 December 2023)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
