

Special Issue

Selected Papers from the International Conference of Biomedical Information Perception and Microsystems

Message from the Guest Editors

This Special Issue aims to gather outstanding works presented at the [2018 International Conference of Biomedical Information Perception & Microsystems](http://www.mdpi.com/journal/sensors/special_issues/ICBIPM). The conference will be held in Chengdu, China, 13–15 June 2018. We invite fellow colleagues, conference participants and academics in various fields to submit their manuscripts. The topics of this Special Issue will mainly cover advanced sensor technologies for biomedical, smart microfluidic sensors and lab-on-chip applications. We also warmly welcome researchers to contribute critical reviews, short perspectives and original research works to this Special Issue. For more information, please visit http://www.mdpi.com/journal/sensors/special_issues/ICBIPM.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
