## **Special Issue**

### Selected Papers from ICOIN 2021 on Next Generation Communication and Networking

### Message from the Guest Editors

This Special Issue aims to provide a forum for submitting both review and research articles on the most recent advances in emerging computer communications and networking technologies from ICOIN 2021. Specifically, it addresses current advancements to pave the way to the future of computing and networking applied to varies areas of society including IoT, healthcare, industry, mobile, and transportation. We encourage the submission of both review and original research articles dedicated to wireless communications. Authors of accepted papers (ICOIN, 2021) are invited to submit the extended versions (at least 50% extension for the submissions) of their original papers and contributions regarding the topics below.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological

developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
