Selected Papers from the 5th International Conference on Structural Health Monitoring and Integrity Management (ICSHMIM 2020)

Message from the Guest Editors

The 5th International Conference on Structural Health Monitoring and Integrity Management (ICSHMIM 2020) will be held from 28 to 29 November 2020 in Kunming, China. This conference will provide an important platform for networking scholars, engineers, and students to showcase their innovative research outcomes, transfer new knowledge, and boost interdisciplinary collaboration in areas of structural health monitoring and integrity management. This Special Issue of *Sensors* (IF: 3.275, ISSN 1424-8220) will collect a number of outstanding papers presented at the ICSHMIM. Conference participants are invited to submit extended versions of their conference papers to this Special Issue. For more details, please visit [here](#).

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
