# IoT Enabling Technologies for Smart Cities: Challenges and Approaches

### Message from the Guest Editors

This Special Issue encourages authors, from academia and industry, to submit new research providing a novel insight into the challenges and the approaches in the development of IoT infrastructures for future sustainable smart cities. The topics include but are not limited to: IoT technology integration IoT architectures and infrastructures Blockchain technologies Machine learning and Artificial Intelligence Smart urban mobility and transportation IoT-aided localization techniques IoT applications for tourism and education scenarios Edge/cloud-computing-based solutions Smart city services based on IoT data Sustainable resource management Environmental monitoring Smart waste management Vehicular networking for traffic management Cryptography, security, and privacy issues and challenges Governance and regulation innovation For more information, please access the Special Issue website at: [https://www.mdpi.com/journal/sensors/special\\_issue/s/IETSC](https://www.mdpi.com/journal/sensors/special_issue/s/IETSC)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
