

Special Issue

Industrial Internet of Things in the Industry 4.0: New Researches, Applications and Challenges

Message from the Guest Editors

In the last few years a lot of effort is being put in the context of Industry 4.0 and in particular in Industrial Internet of Things (IIoT). The application of the concepts of Internet of Things in an industrial environment opens a lot of different new application like Smart Factory, Smart Logistics, Smart Lifecycle, among others. The application of smart sensors, for instance, eases the digitalization process demanded by Industry 4.0 providing access to the information and configuration of field devices. The main objective of this special issue is to collect state-of-the-art contributions on the latest research and development, up-to-date issues, and challenges in IIoT. We invite researchers from academia and industry to submit their high-quality works and research findings.

Guest Editors

Prof. Dr. Salvatore Cavalieri

Department of Electrical Electronic and Computer Engineering (DIEEI),
University of Catania, Catania, Italy

Dr. Nunzio Marco Torrisi

Associate Professor, Center of Mathematics, Computing and Cognition (CMCC), Universidade Federal do ABC (UFABC), Santo André, Brazil

Deadline for manuscript submissions

closed (31 March 2023)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
