

Special Issue

Cybersecurity and Reliability for 5G and Beyond and IoT Applications

Message from the Guest Editors

This Special Issue seeks the latest contributions and reviews offering cybersecurity and reliability solutions for 5G and beyond and IoT applications. The topics of interest in 5G and beyond and IoT domains include, but are not limited to:

- Networking and communication security and reliability;
- Cyberattack defense and vulnerability modeling;
- Architectures, guidelines, and standards for cybersecurity and reliability;
- Secure and reliable information management;
- Methods for addressing the unreliability of local devices;
- Digital twins for enhancing cybersecurity;
- ML- and AI-enabled critical infrastructure protection;
- Adaptive security solutions;
- Software testing approaches for reliable communication;
- Decentralized schemes for trust management;
- Autonomous security and service management;
- Security assurance and optimization;
- Big data security and reliability.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
